3. Change Sheeps Epoch Repack to your liking

CHANGE LOAD SCREEN

1. To change the loading screen make a JPG image
make sure it is one of following resolutions 512x256, 1024x512, 2048x1024
2. Save it in pictures in the mission folder as "loadscreen.jpg"
(overwrite the one thats there, its the repack default)

CHANGE DEATH SCREEN

1. To change the death screen make a PAA image, first make a JPG then open it with TexView2 and saves as PAA.
you can get TexView2 as part of BI TOOLS [here](#) .
make sure it is one of following resolutions 512x256, 1024x512, 2048x1024
2. Save it in pictures in the mission folder as "deathscr.paa"
(overwrite the one thats there, its the repack default)

DEBUG MONITOR

CHANGE DEBUG MONITOR

CUSTOM LOOT TABLES

To change loot open the following 3 files

scripts\customloot\CfgBuildingLoot.hpp

scripts\customloot\cfgLoot.hpp

scripts\customloot\CfgLootSmall.hpp

EXAMPLE

Open scripts \custom_loot\Configs\cfgLoot.hpp

At the top of the file you will see this

```
trash[] = {  
    {"TrashTinCan",0.5}  
    ,{"TrashJackDaniels",0.05}  
    ,{"ItemSodaEmpty",0.25}  
    ,{"ItemTrashToiletpaper",0.1}  
    ,{"ItemTrashRazor",0.1}  
};
```

So whats it mean?

Basically "TrashTinCan" has a 0.5 chance to spawn in the loot table trash

So if you wanted it to appear more often in trash piles increase the number

To add a new item to spawn add it like so

```
trash[] = {  
    {"TrashTinCan",0.5}  
    ,{"TrashJackDaniels",0.05}  
    ,{"ItemSodaEmpty",0.25}  
    ,{"ItemTrashToiletpaper",0.1}  
    ,{"ItemTrashRazor",0.1}  
    ,{"ItemTrashRazor",0.1} <---- New Item  
};
```
